Lenovo ThinkCentre "Tiny" i5 - Business Black

Just reduced to

\$769⁹⁹

Uncompromising Performance

The Lenovo ThinkCentre Tiny offers reliable, enterprise-level performance that you can rely on over the long haul. These models may be small, but don't let their size fool you. Tiny desktops feature powerful 4th Gen Intel® Core™ processors - the same as you'll find in much larger desktops. What's more, plenty of storage and memory means you won't sacrifice on performance or space when choosing ThinkCentre Tiny.

Long-Term Manageability

With an advanced heat regulator as well as an ultra-efficient, Green design, ThinkCentre Tiny will benefit you longer than competitor offerings. It's built to last, saving you money in the short term, as well as in the long term.

Franktronics Customer Service

Franktronics provides the following services in-house with all new Lenovo computers purchased thru us:

- Perform the initial Windows 7 setup and configuration, including user accounts, network configuration, and domain settings (if applicable)
- Un-install any extra software preloaded on the computer not necessary for your application. For example, we'll remove the trial version of Microsoft Office if we're installing a version you already purchased
- Install all available critical Windows 7 updates and applicable recommended updates
- Install the latest version of Microsoft Security Essentials and install updates
- Install any software that you have already purchased or purchase with the computer. Original licensing and installation media is required and must be brought to our office.
- Install any upgrades or accessories purchased with the computer
- Transfer data from another computer. The other computer must be brought to our office to perform the transfer.
- All warranty, support, and repair issues are handled in our office.
