### Franktronics Customer Service

Franktronics provides the following services in-house with all new Lenovo computers purchased thru us:

- Perform the initial Windows setup and configuration, including user accounts, network configuration, and domain settings (if applicable)
- Un-install any extra software preloaded on the computer not necessary for your application. For example, we'll remove the trial version of Microsoft Office if we're installing a version you already purchased
- Install all available critical Windows updates and applicable recommended updates
- Install the latest version of Microsoft Security Essentials and install updates
- Install any software that you have already purchased or purchase with the computer. Original licensing and installation media is required and must be brought to our office.
- Install any upgrades or accessories purchased with the computer
- Transfer data from another computer. The other computer must be brought to our office to perform the transfer.
- All warranty, support, and repair issues are handled in our office.

### ThinkCentre Desktop Upgrades and Accessories

All new Lenovo ThinkCentre desktops come with a Lenovo keyboard and Lenovo Mouse. Monitors are not included. We can customize or upgrade your new **Lenovo ThinkCentre** with:

- Additional Memory
- Larger hard drives
- Additional hard drives (desktop only)
- Lenovo LCD monitors
- CPU upgrades
- Video upgrades/multi-display options
- Audio upgrades

### ThinkPad Notebook Upgrades and Accessories

All new Lenovo ThinkPad notebooks come with the power supply. We can customize or upgrade your new **Lenovo ThinkPad** with:

- Additional Memory
- Larger hard drives
- Video and CPU upgrades (ask for availability)
- Lenovo backpacks and carry cases
- 12 volt car adapters
